What's available to me?

Your income is important - you depend on it for almost everything. If you're too sick or hurt to work for a long period of time, you can rely on long-term disability insurance to replace a portion of your monthly income.

Your primary monthly benefit is 60% of your earnings prior to your disability up to $10,000 minus other income sources. Other income sources could include but aren't limited to Social Security for you and your dependents, other earnings, worker's compensation, state disability (if applicable) and salary continuance.

Your benefits are determined by your base wage with bonus and commissions. This is your definition of earnings and is outlined further in the booklet you'll receive following enrollment.

Compensation for business owners covers business profits plus salaries averaged over the prior two years.

Who can buy coverage?

- You may buy coverage if you're an active, full-time employee working at least 30 hours a week. Seasonal, temporary, or contract employees can't purchase.
  - If you're on regularly scheduled day off, holiday, vacation day, jury duty, funeral leave, or personal time off, you're still considered actively at work, as long as you're fulfilling your regular duties and were working the day immediately prior to your time off.
  - You must enroll within 31 days of being eligible. If you don't, you'll need to provide health information for us to review for approval.

Additional eligibility requirements may apply.

When do I begin receiving disability benefits?

Your elimination period is 90 days. The elimination period is the amount of time before you start receiving benefits.

If you recover and return to work during your elimination period and become disabled again, you may not have to satisfy a new elimination period. If you qualify for this, your elimination period will pick up at the point where it was left off when you recovered.

Once I start receiving benefits, how long will they continue?

Age disability occurs	Benefits are payable until the later of:
Under age 65	Social Security Normal Retirement Age (SSNRA) or 36 months
Age 65-67	SSNRA or 24 months
Age 68-69	SSNRA or 18 months
Age 70-71	SSNRA or 15 months
Age 72 and over	SSNRA or 12 months

What types of conditions may qualify as a disability?

You'll be considered disabled due to sickness or injury, or pregnancy.

During the first 2 years of receiving benefits, your disability is based on your own occupation, known as the own occupation period. This is the occupation you're routinely performing at the time of disability. After 2 years, we'll evaluate for any occupation based on education, training or experience.

During your elimination period and your own occupation period, one of the following must apply:

- You're unable to perform the majority of the substantial and material duties of your own occupation; or
- You're unable to earn 80% of your indexed income prior to your disability while working in a modified capacity.

After completing the own occupation period, one of the following must apply:

- You're unable to perform the majority of the substantial and material duties of any occupation for which you are or may reasonably become qualified based on education, training, or experience.
- You're performing the substantial and material duties of your own occupation or any occupation on a modified basis and are unable to earn more than 80% of your indexed income prior to your disability.

Do I qualify if I have a preexisting condition?

- You may. If you haven't been seen by a doctor or prescribed medication for an injury or sickness in the last 3 months or if your disability happens after 12 consecutive months of coverage, you may qualify.

Are mental nervous, drug/alcohol and special conditions covered?

- It'll be considered a disability if it's caused by:
  - A mental health condition for up to a lifetime maximum of 24 months
  - Abuse, dependency, or addiction to alcohol, drug, or chemicals for up to a lifetime maximum of 24 months
  - A special condition such as (but not limited to) chronic fatigue syndrome, musculoskeletal or connective tissue disorders for up to a lifetime maximum of 24 months
- The amount of time you receive benefits for these covered conditions will be limited to a combined lifetime maximum of 24 months.

Additional benefits:
